

HYGITECHPRO

BIO DISINFECTION

DISINFECTION

99,9% Biodegradable
Can be used on all surfaces
Effective against bacteria,
Viruses, fungi and spores

Add: Yenibosna merkez mahallesi değirmenbahçe cad
İstwest A1B blok kat 3 daire 36 Bahçelievler/İstanbul

Device features

- Our diffusion machine(Higitechpro) allows automatic intermediate and high level disinfection of the air and surfaces of a room from volume of 50 m³ up to 1000 m³ using Dry Mist technology. No preparation necessary before treatment (except cleaning) or intervention after treatment (no need to wipe or ventilate).
- Portable (7 Kg)
- Programmable (with 2 memories)
- User friendly
- Cost effective (using only 1cc of solution per cubic meter)
- Applicable in various fields for disinfection (Medical, Dental, Pharmaceutical, Food industry, Health care facilities, public transport, kindergarten ,Gym and etc.)
- Microbial Test Validation

Solution applied by device:

- Ready to use, bio-disinfecting surface product based on hydrogen peroxide 6% and silver ion.
- Released as gas (5 μ particle) allows homogeneously disinfected 100% of the treated surfaces.
- Effective on viruses, bacteria, yeasts, spores and fungi.
- Biodegradable 99.9%, non-toxic, non-corrosive, non-allergenic,
- leaves no residue and does not create germ resistance.
